Professional Summary

Future Systems and Computer Engineer and Associate Degree Graduate in Software Analysis and Development with practical experience in the full software development lifecycle (Frontend, Backend, and Automation). Demonstrated capability to design dynamic user interfaces, build and connect backend endpoints, manage relational databases, and optimize workflows using modern automation tools. Strong logical problem-solving skills, highly cooperative in agile team environments, and passionate about continuous technical learning. B1 English level (technical comprehension and documentation).

Technical Skills

Languages	Java, Python, PHP, C++, C, Node.js.
Web / APIs	React, Angular, REST API development & consumption, Endpoint creation.
Databases	PostgreSQL, MySQL, Oracle Database, MongoDB, Connection management.
Automation	n8n (Advanced), Make (Integromat), Power Automate, Bot Automation.
Tools	Git, GitHub, SSH Keys, IntelliJ IDEA, Cursor, VS Code, Raspberry Pi.

Work Experience

Jan. 2024 – **Development Intern, Apostar S.A., Pereira, Colombia**

- Jun. 2024
- Designed and developed frontend web interfaces (Login modules, Control Dashboards) using React and Angular, ensuring visual consistency and responsive styling.
 - Built, deployed, and documented backend endpoints, achieving efficient and secure communication between the server and the user interface.
 - Implemented and optimized business automation workflows using n8n, developing an integrated corporate bot to streamline internal processes and data communication.
 - Managed database persistence by configuring secure connections to PostgreSQL databases.
 - Managed code repositories and version control using Git and GitHub, strictly employing security protocols based on SSH keys.
 - Configured and integrated embedded hardware systems (Raspberry Pi) for development environment testing.

Education

2021 – Present	B.S. in Systems and Computer Engineering, Universidad Tecnológica de Pereira (UTP), 7th Semester – Night Shift Full daytime availability for remote work environments and professional development projects.
2022 – 2024	Associate Degree in Software Analysis and Development, SENA, Pereira, Colombia

Certifications & Languages

Certifications	Junior Java Developer – Certiprof / Dev Senior Code
Languages	Spanish (Native), English (B1 Level – Technical comprehension and documentation reading)
